

**Royal Far West**  
Children's health, country-wide

Too many of Australia's country kids don't have access to the care they need, simply because of where they live.

Together, we can help them reach their full potential.

**Register now to participate in Royal Far West's 30 for 30 Country Kids Challenge.**

Each day for 30 days, spend 30 minutes nourishing your own physical, mental or spiritual wellbeing while raising funds to help vulnerable country kids access the developmental and mental healthcare services they urgently need.
